Brief description of filing. (If filing follows rates of an advisory organization, specify organization):

Safeco's current motorcycle program is based on a competitive analysis. Since competitors in the state have recently made changes we are adjusting our rates to bring our rates in-line with theirs. With this adjustment there is an increase in the following coverages: BI/PD, medical payments, UM/UIM, comprehensive and collision. In order to mitigate these increases we propose: 15% rate cap on renewals, the addition of a new discount, expanding discounts to additional coverages and positively adjusting various discount percentages. Other changes with this filing that will help maintain our competitiveness in the state are the addition of trip interruption coverage, the addition of replacement cost coverage and raising our maximum insurable CP&E amount.

With these proposed adjustments Safeco is convinced that their motorcycle program will continue to develop into a strong and viable player in the state of Illinois
